Dear Mr. Weisberg,

I'am a 23 year old Canadian and I've been researching the JFK assasination for three years. I have just finished reading your latest work 'Case Open'. The only word I can think of to describe it is brilliant. It is the best book I have read so far in my quest for the truth to what really happened that tragic day in Dallas. I have also read Mr. Posner's book 'Case Closed'. I can not believe that such a piece of dictated literature could be published without a disclaimer on the cover. As you pointed out in your book 'Case Closed' is filled with falsifications and very sketchy evedience. In my mind Mr. Posner should have called his work 'The Warren Report II'. I would like to thank you for taking your time to prove that 'Case Closed' is far from what the title presents.

Here in Canada, material on the assasination is very hard to come by.
